# Reading Skills

The art of vocal percussion using syllables for rhythm is known as Konnakol. Recitation of Konnakol helps develop a stronger understanding of rhythm and rhythmic patterns. It is important to keep *talam* while reciting Konnakol.

As preparation for the test, candidates should recite the following exercises in two speeds - each phrase should be repeated twice in the first speed, and then twice in the second speed. In the first speed, there is 1 syllable in 1 beat; in the second speed, there are 2 syllables in 1 beat.

## Syllabus Guidance

- The teacher, at the exam centre, is encouraged to speak to the candidate during the exam to put them at ease and to help them understand what is being requested. For more guidance on conducting/taking the exam, please [click here](#).
- The recording should not be turned off at any point during the exam until all elements of the assessment have been completed. For more recording advice, please [click here](#).
- For Practical Grades, follow the syllabus requirements mentioned above. To learn about the requirements for Performance Grades, please [click here](#).
- To learn more about how our exams are assessed, visit our Marking Criteria page [here](#).
- Any suitable fingerings may be used for pieces and scales. However, technical exercises must be played using the marked fingerings, where indicated.

### Recital Guidance - Practical & Performance Grades:

- Repeats (of sections or lines marked to be played again) are optional for MTB exams; however, they are encouraged, as they are often structurally important and can offer opportunities to display greater dynamics and expressive variation.
- The candidate should introduce each piece they are about to perform by stating its title and *ragam*.
- The teacher may help the candidate with tuning before the exam begins. This should be done before the recording starts.
- Recorded accompaniments may be used instead of a live accompanist. Ensure that the accompaniment is played on a different device from the one used for recording the exam.

### Technical & Musicianship Guidance - Practical Grades:

- The tempi indicated for the exercises and pieces are suggested guidelines. Students may perform at a slightly faster or slower pace based on their comfort and ability.
- MTB exams do not include any unprepared elements; candidates should practise all the technical and musicianship elements thoroughly before the exam.
- If the exercises in the Listening Skills fall outside the candidate's range, they may be transposed. However, all exercises within a test must be transposed by the same interval.
